13. Bug kaise report karein
14. Final checklist

# 1. Shuru karne se pehle

Ashniva Ads ek website (web app) hai jahan companies aur agencies Facebook/Instagram, Google/YouTube, TikTok jaise platforms ke **ads ek hi jagah dekh aur chala** sakti hain. Aapka kaam hai har feature ko chala kar dekhna ki wo waisa hi kaam kar raha hai jaisa is guide me likha hai.

## Aapko kya chahiye

- Computer pe Chrome browser (latest version). Thodi testing phone pe bhi karni hai.
- App ka link (developer dega). Local computer pe ye usually **http://localhost:3100** hota hai.
- Demo login: **demo@ashniva.com** / **Demo@12345**. Isme pehle se sample data bhara hai.
- Apna ek alag test email (jaise tester1@gmail.com) naya account banane ke liye.

## Sample data kya hai?

Abhi asli Facebook/Google accounts connect nahi hote (unki permission aana baaki hai). Isliye app me **sample data** hai: 7 platforms ke nakli (lekin realistic) campaigns aur unke numbers. Aap inhe pause karo, budget badlo ya naya campaign banao, kuch bhi asli platform pe nahi jaata. Isliye bina dar ke test karein.

**Rule of thumb:** har test me pehle **“Aapko kya karna hai”** wala kaam karein, phir screen ko **“Kya hona chahiye”** se milayein. Same ho to **Pass**, alag ho to **Fail** pe tick karein aur bug report bharein (section 13).

Kabhi koi demo campaign pause kar diya ho to test ke baad use wapas **Active** kar dena, taaki agle tester ko data same mile.

# 2. Aasaan bhasha me zaroori shabd

| Shabd | Matlab (simple) | Example |
|---|---|---|
| **Campaign** | Ek ad mission, jaise "Diwali Sale". Iske andar ad groups aur ads hote hain. | Festive Sale – Prospecting |
| **Ad group / Ad set** | Campaign ke andar ek group jisme audience (kaun dekhega) set hoti hai. | Women 25–44 · Metro cities |
| **Ad** | Asli ad jo log dekhte hain: photo/video + text. | Reel – Festive Collection 15s |
| **Platform** | Jahan ad chalta hai. | Meta (Facebook/Instagram), Google, TikTok |
| **Ad account** | Platform pe company ka ads ka khaata. | Ashniva Retail · Meta |
| **Workspace** | Ek client/brand ka alag dabba. Agency har client ka alag workspace rakhti hai. | Ashniva Retail, Urban Threads |
| **Spend** | Ads pe kitna paisa kharch hua. | ₹31.9L |
| **Impressions** | Ad kitni baar screen pe dikha. | 2.3Cr |
| **Clicks** | Kitne logon ne ad pe click kiya. | 2.8L |
| **CTR** | 100 me se kitne logon ne click kiya (clicks ÷ impressions). | 1.27% |

| Shabd | Matlab (simple) | Example |
|---|---|---|
| **CPC** | Ek click ka kharch. | ₹13.06 |
| **Conversions** | Kitne logon ne kharida ya form bhara. | 8.3K |
| **Cost / conv. (CPA)** | Ek kharidaar/lead laane ka kharch. | ₹383 |
| **Revenue** | Ads se kitni sales hui. | ₹1.2Cr |
| **ROAS** | ₹1 kharch pe kitne ₹ wapas aaye (revenue ÷ spend). Zyada achha. | 3.88× = ₹1 pe ₹3.88 |
| **Paused / Active** | Ad band hai / chal raha hai. | Toggle switch |
| **Daily budget** | Ek din me maximum kharch. | ₹18,000 / day |

Dashboard pe **green** ▲ matlab achhi khabar aur **red** ▼ matlab buri. Dhyan dein: kharch wale numbers (CPC, Cost/conv.) **kam hon to green** dikhte hain.

# 3. App ka naksha (kahan kya hai)

Login ke baad bayein taraf (left side) **menu (sidebar)** hota hai. Upar **header** me search aur notifications ka bell hai.

| Menu | Kya milta hai |
|---|---|
| **Workspace naam (sabse upar)** | Click karke dusre client/workspace pe jaayein ya naya workspace banayein |
| **Overview** | Dashboard: saare platforms ke total numbers, chart, top campaigns |
| **Reports** | Saved reports, PDF/Excel download, email schedule, share link |
| **Campaigns** | Saare campaigns ki list, pause/activate, budget, naya campaign banana |
| **Creatives** | Ads ke photos/videos ki library |
| **Automations** | Auto rules, jaise "ROAS gire to ad band karo" |
| **Integrations** | Facebook/Google jaise platforms jodne ki jagah, sample data |
| **Activity log** | Kisne kab kya badla, uski poori list |
| **Settings** | Company, workspaces, team, branding, API keys, plan, profile |
| **Neeche aapka naam** | Profile, dark/light mode, Platform admin (sirf admin ke liye), Sign out |
| **Header: Search (⌘K)** | Kisi bhi page ya campaign pe turant jaayein |
| **Header: Bell (ghanti icon)** | Notifications (alerts) |

# 4. Kaun kya kar sakta hai (roles)

Har user ka ek **role** hota hai. Role ke hisaab se kuch buttons dikhte hain ya chhup jaate hain.

| Kaam | Owner | Admin | Manager | Analyst | Client |
|---|---|---|---|---|---|
| **Data aur reports dekhna** | Haan | Haan | Haan | Haan | Haan |
| **Campaign pause/activate, budget, naya campaign** | Haan | Haan | Haan | Nahi | Nahi |
| **Automation rules, creatives upload** | Haan | Haan | Haan | Nahi | Nahi |
| **Reports banana aur share karna** | Haan | Haan | Haan | Haan | Nahi |
| **Platform connect karna** | Haan | Haan | Nahi | Nahi | Nahi |
| **Team invite karna, workspaces banana** | Haan | Haan | Nahi | Nahi | Nahi |
| **Branding, API keys** | Haan | Haan | Nahi | Nahi | Nahi |
| **Activity log** | Haan | Haan | Nahi | Nahi | Nahi |
| **Plan aur billing** | Haan | Nahi | Nahi | Nahi | Nahi |
| **Saare workspaces dekhna** | Haan | Haan | Sirf diye gaye | Sirf diye gaye | Sirf diye gaye |

> Demo account (**demo@ashniva.com** / **Demo@12345**) **Owner** hai, aur platform ka **Super Admin** bhi, isliye isme sab kuch dikhega. Roles test karne ka tareeka Test 25 me hai.

# 5. Test 1–4: Website, signup, login, password

## Test 1: Website (landing page)

**Kahan milega:** App ka main link kholte hi (login se pehle)

# 12. Ye bugs NAHI hain (abhi jaan-boojh kar aisa hai)

Neeche wali cheezein abhi isliye aisi hain kyunki unke liye company ki keys/permissions aana baaki hai. Inhe bug report me **na** daalein.

| Aap kya dekhoge | Kyun |
|---|---|
| **Emails (invite, password reset, scheduled report) inbox me nahi aate** | Email service ki key abhi set nahi hai; emails server ke log me dikhte hain |
| **Integrations pe "Awaiting API access"; asli Facebook/Google connect nahi hota** | Meta/Google ki approval aani baaki hai |
| **"Write with AI" aur "AI insights" button nahi dikhte** | AI ki key abhi set nahi hai |
| **Billing pe "Talk to sales"; online payment nahi hota** | Razorpay keys abhi set nahi hain |
| **Sample campaign pause karne se asli Facebook pe kuch nahi hota** | Ye nakli (sample) data hai |
| **TikTok, LinkedIn waghera ke liye builder me "coming soon"** | Builder abhi Meta aur Google ke liye hai |
| **Admin page pe revenue ₹19,999 dikhta hai** | Demo company ko test ke liye Agency plan pe rakha gaya hai |

# 13. Bug kaise report karein

Jab koi test **Fail** ho, neeche wala format bharein (Excel/Google Sheet ya message me). Saaf bug report se developer jaldi theek kar pata hai.

| Field | Kya likhna hai | Example |
|---|---|---|
| **Test number** | Is guide ka test aur step | Test 6, step 5 |
| **Page / link** | Browser ke upar wala link | /w/.../campaigns |
| **Kya kiya** | Step by step, jaise kisi ko bata rahe ho | Meta campaign ka switch band kiya |
| **Kya hona chahiye tha** | Guide ka expected result | Status Paused aur message aaye |
| **Kya hua** | Asal me screen pe kya hua | Switch wapas on ho gaya, laal error aaya |
| **Error ka text** | Jo message aaya, wahi copy karein | Something went wrong |
| **Screenshot / video** | Poori screen ka screenshot | screenshot.png |
| **Device / browser** | Computer ya phone, Chrome version | Windows, Chrome 141 |
| **Kitna serious** | High (kaam ruk gaya) / Medium / Low (design ki galti) | High |
| **Dobara hota hai?** | Har baar / kabhi-kabhi / ek baar | Har baar |

**Tip:** galti dikhte hi page refresh na karein; pehle screenshot lein. Agar error ka message chhota popup me aaya ho to wo kuch second me gayab ho jata hai, isliye jaldi screenshot lein.

# 14. Final checklist

Testing khatam karne se pehle ye sab ho jaana chahiye:

- ☐ Saare 25 tests me Pass/Fail tick kiya
- ☐ Har Fail ka bug report bhara
- ☐ Demo campaigns wapas Active kiye aur budget purane jaise kiye
- ☐ Branding colour wapas #3b5bdb aur logo hataya
- ☐ Demo account ka password nahi badla
- ☐ Phone pe Test 23 kiya
- ☐ Light aur dark dono mode me ek baar app dekha
- ☐ Banaye gaye test workspaces/rules/reports ki list developer ko di

Shukriya! Aapki testing se Ashniva Ads customers ke liye aur behtar banega.
